### Winter Guidance

- Where possible, the stated round should be shot.
- All shoots are Target days to allow you to submit scores for classification and handicap purposes.
- All are responsible for setting up / taking down range.  
Please ensure range is ready before setting up own equipment
- Please remember to book in via the Club App and state the distance you want to shoot. This will assist with the set up of the range.
- The last person to the field will act as Field Captain for the session.  
(Support will be given to anybody new to acting as Field Captain.)
- Burntwood rounds have been suggested for when the ground is too waterlogged. If the ground is dry alternative rounds shown can be shot.
- If the ground is too wet, target shoots may be switched to clout. As much notice as possible will be provided of a change in plan.
